

The constitution gives you the right.
Your loved ones give you the reason.
We give you the skills to use it
responsibly.

INPAX | Defensive Firearms Training

Owning a firearm won't make you safer. Unless, that is, you know how to use it safely and effectively.

Our training classes are designed to take you from any level of proficiency (even, in fact, if you've never fired a gun in your life) to give you the skills and understanding to maintain and deploy it safely in defense of your life or those of your loved ones. Our faculty is made up of the same instructors who teach and certify Federal agents, SWAT teams, and Executive & Dignitary Protection Teams.

Simply stated, it's the highest quality training you'll find anywhere in the country. But why trust your safety - or your family's safety - to anything less?

INPAX offers the following firearms programs:

Defensive Handgun. The DHG program prepares clients in defensive use of the revolver or semi-automatic pistol, on the street or at home.

Defensive Long-gun. For those who prefer shotguns or tactical rifles such as the AR-15 and AK-47, INPAX presents introductory and advanced courses in their use, including low-light shooting.

Seminars and Special Programs. Throughout the year, INPAX offers special events and training on a variety of topics, including a Justifying Force seminar, a Multi-State Concealed Carry Permit course, and SimCity, our real world training simulations.

Program Details

Specific Details:

Firearms programs vary by scope and subject matter.

Classes are available in Private, Semi-Private, and Group formats that can be tailored to your specific needs.

Consult the INPAX website at www.LiveWithConfidence.com for specific details regarding schedule, location and prerequisites.

Defensive Firearms Training

"Sam is a good friend and a great leader in the personal security training community, with an awesome team of trainers"

Lt. Col Dave Grossman
Author, *On Killing & On Combat*

"It makes me feel very prepared. It makes me more aware of what is going on around me. If anything happens, I'm ready to react. INPAX is usable, it is easy to learn and it's fun. You just have to try it."

Joanne Herd
INPAX Client

About INPAX

INPAX has empowered thousands of individuals with the essential ability to manage violence in the real world. What makes it so different, so effective?

Simple. The distillation of 20+ years of research and real-life application, INPAX uses a small, highly focused vocabulary of verbal, non-verbal, and physical tactics that can be applied against a wide array of threats.

Practical. Using simple, gross motor processes that are effective regardless of size or strength, INPAX does not require years of continuous practice and athletic ability to achieve real skill.

Real. INPAX is a system proven effective under extreme adrenalin and real-world stress, and across the full spectrum of violence – from single opponents to guns, knives and multiple aggressors.

Smart. When the stakes are high and seconds count, the unique vertical decision making process that is the foundation of the INPAX system, allows you to know what to do, and how – instantly - no matter what the scenario.
